

## Seminar, PLP 515, Fall 2013

Aug 19	Organizational Meeting - all enrolled students
Aug 26	<b>Sindhuja Sankaran</b> , Assistant Professor, WSU Department of Biological Systems Engineering: Advancements in Sensing Technologies for Detecting Diseases in Crops <a href="#">Announcement</a>
Sept 2	Labor Day - No Seminar
Sept 4	<b>Sudarsana Poojari</b> , Graduate Student, PhD, (PhD exit seminar): Studies on Graft-Transmissible Diseases of the Grapevine ( <i>Vitis Vinifera</i> L.) <a href="#">Announcement</a>
Sept 9	<b>Dean Glawe</b> , Professor, WSU Department of Plant Pathology: How to identify a fungus <a href="#">Announcement</a>
Sept 16	<b>Gita Mahalaxmi Bangera</b> , Assistant Dean of Sciences, Chair of Life Sciences, Bellevue College: Classroom based undergraduate research: How Community College students could become part of the research workforce <a href="#">Announcement</a>
Sept 23	<b>Loren S. Ariza</b> , Graduate Student, MS: Jakob Eriksson: a special form of plant pathologist <a href="#">Announcement</a> ----- <b>Danilo Vera</b> , Graduate Student, PhD: James E. Vanderplank. An overview of the man who revolutionized plant disease epidemiology <a href="#">Announcement</a>
Sept 30	<b>Gaurav Raikhy</b> , Postdoctoral Research Associate, Department of Plant Pathology, Washington State University, Pullman: Determination of domains responsible for self-association in RNA and DNA viruses <a href="#">Announcement</a>
Oct 7	<b>Swarnalatha Moparthi</b> , Graduate Student, PhD: Gene for gene: The life and studies of H.H Flor <a href="#">Announcement</a> ----- <b>Andrea Garfinkel</b> , Graduate Student, PhD: Helen Hart: An “extraordinary” pioneer in plant pathology <a href="#">Announcement</a>
Oct 14	<b>Keith Clay</b> , Distinguished Professor of Biology, Indiana University – Bloomington: Defensive Symbiosis in Grasses and Morning Glories <a href="#">Announcement</a> <i>Co-Sponsored with School of Biological Sciences</i> <b>NOTE: Location - 201 Abelson, reception at 3:40 pm in 304/306 Abelson; no AMS/WECN available</b>
Oct 21	<b>David Wheeler</b> , Graduate Student, MS: The Life of Theodor Otto Diener <a href="#">Announcement</a> ----- <b>Elle Kramer</b> , Graduate Student, MS: Gerald Thorne: a nematological giant <a href="#">Announcement</a>
Oct 28 9:30 am AMS 5708172	<b>Dr. Annemiek Schilder</b> , Department of Plant, Soil and Microbial Sciences, Michigan State University: The Quest for Sustainable Disease Management: A Blueberry Saga. <i>Candidate for Assistant/Associate Professor Plant Pathology</i> <a href="#">Announcement</a>
Oct 28	<b>Michele Wiseman</b> , Graduate Student, MS, (Exit Seminar): Two New Postharvest Fruit Rot Diseases in Apple Caused by <i>Lambertella corni-marisi</i> and <i>Ceuthospora</i> cf. <i>pinastri</i> in Washington State <a href="#">Announcement</a>

Nov 4 9:30 am AMS 5708172	<b>Dr. Megan Dewdney</b> , Citrus Research and Education Center, University of Florida: Apples or Oranges: They Both Get Disease. <i>Candidate for Assistant/Associate Professor Plant Pathology</i> <a href="#">Announcement</a>
Nov 4	<b>Binod Pandey</b> , Graduate Student, PhD: John Charles Walker and His Studies on Plant Disease Resistance. <a href="#">Announcement</a> ----- <b>Charles E. Christianson</b> , Graduate Student, MS: Erwin F. Smith: The Father of Plant Bacteriology <a href="#">Announcement</a>
Nov 5 10 am AMS 5708455	<b>Khalid Naveed</b> , Graduate Student, PhD (Exit Seminar): Biological and molecular studies on Potato-virus interactions using <i>Potato virus S</i> and <i>Potato virus Y</i> as model systems <a href="#">Announcement</a>
Nov 6 9:30 am AMS 5708453	<b>Sang-Wook Park</b> , Virginia Bioinformatics Institute, Virginia Tech: Jamonates and Salicylates - Key Players in Plant (and Human) Health. <i>Candidate for Assistant Professor Plant Pathology</i> <a href="#">Announcement</a>
Nov 8 11 am AMS 5708012	<b>Michael Schwager</b> , Graduate Student, MS, (Exit Seminar): Evaluation of Predictive Models for Botrytis Bunch Rot in Wine Grapes and their Applicability in Eastern Washington <a href="#">Announcement</a>
Nov 11	Veteran's Day - No Seminar
Nov 12 9:10 am AMS 5708562	<b>William Underwood</b> , Energy Biosciences Institute, University of California Berkeley: Targeting of plant cell-surface immune responses to the host-pathogen interface. <i>Candidate for Assistant Professor Plant Pathology</i> <a href="#">Announcement</a>
Nov 14 9:30 am AMS 5708562	<b>Elamir Wassim Chehab</b> , Department of Biochemistry and Cell Biology, Rice University: Plant Environmental Stress Resistance: Roles of Touch and Jasmonate. <i>Candidate for Assistant Professor Plant Pathology</i> <a href="#">Announcement</a>
Nov 18	<b>Iqbal Aujla</b> , Graduate Student, PhD: Lewis Ralph Jones: Pioneer Scientist & Visionary - Above Controversies <a href="#">Announcement</a> ----- <b>Zachary Frederick</b> , Graduate Student, PhD: Joseph Charles Arthur <a href="#">Announcement</a>
Nov 21 9 am AMS 5708562	<b>Kiwamu Tanaka</b> , National Center for Soybean Biotechnology, University of Missouri: Extracellular ATP Signaling in Plants. <i>Candidate for Assistant Professor Plant Pathology</i> <a href="#">Announcement</a>
Nov 25	Thanksgiving Break - No Seminar
Dec 2	<b>Chongjing Xia</b> , Graduate Student, MS: John H. Craigie: A pioneer plant pathologist in rust fungi <a href="#">Announcement</a>
